DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 12, 2003 has been entered.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 3, 4, 6-10, 12, 13 and 38 drawn to a gaming system wherein award values are disclosed prior to a generating a final outcome, classified in class 463, subclass 20.
- II. Claims 15, 16, 17, 18, 19, 20, 21-24-37, drawn to a gaming device incorporating a mechanical door for generating a visual display to reveal outcomes, classified in class 463, subclass 30.

As amended, Inventions I and II are distinct from each other because they are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because means other than a mechanical door may be used to generate a visual display to revealing outcomes. For example, a video display, curtains, hinged panels, and shutters. The subcombination has separate utility such as means for revealing outcomes on a television game show or a home board game.

Art Unit: 3714

These inventions are distinct for the reasons given above. Accordingly, they have acquired a separate status in the art as shown by their different classification. Furthermore, the search required for Group I is not required for Group II. Still furthermore, the inventions have recognized divergent subject matter, restriction for examination purposes as indicated is proper. Hence, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
